### **DETAILED ACTION**

Claims 1-29 are pending in the application.

#### ***Election/Restrictions***

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-6, 12-16, 23, 25, 27 and 29, drawn to a method of inhibiting the occurrence of advanced endometrium maturation, classified in class 530, subclass 399.
- II. Claims 7-11, 17-20, 24 and 26, drawn to a method of achieving pregnancy, classified in class 800, subclass 8.
- III. Claims 21 and 22, drawn to a non human animal, classified in class 800, subclass 8.

The inventions are distinct, each from the other for the following reasons.

The inventions of Group I are patentably distinct from the inventions of Group II because the inventions are drawn to methods that require different starting materials and modes of operation. The method of Group I require different steps than the method of Group II. Therefore, the inventions of Group I and Group II are patentably distinct.

The inventions of Group I are patentably distinct from the inventions of Group III because the inventions are drawn to compositions and methods that are not directly related. The compositions of Group III cannot be made by the methods of Group I. Therefore, the inventions of Group I and III are patentably distinct.

Inventions II and III are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be

Art Unit: 1636

used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case, the non human animal can be made by other method such as natural birth. Therefore, the inventions of Groups II and III are patentably distinct.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.
